# FOREST FIRE PREVENTION IS EVERYBODY'S BUSINESS

Carelessness is responsible for 97 percent of all our forest fires. This is a serious indictment of our interest in our own welfare and that of our neighbors. In too many instances this carelessness results in the destruction, not of the careless one's own property, but of someone not even known to him.

Thoughtlessly thrown lighted cigars, cigarettes and matches from moving vehicles, by hikers, hunters and fishermen; the careless burning of debris during hazardous periods, high winds or in dangerous locations; improperly extinguished camp or cook fires — all add up to the CARELESSNESS that means serious loss of property, disruption of industry and farm work and unnecessary expenditures of town and state funds.

It points to the need of eliminating CARELESSNESS so far as it concerns fire from our daily life. The rules are simple — your cooperation is earnestly solicited.

- 1. Be careful with fire in or near woodlands.
- 2. Be sure that all lighted materials cigars, cigarettes and matches is completely out before discarding it. Use ash trays in autos.
- 3. Secure the required written permission to burn from your local forest fire warden when the ground is not completely covered with snow.
- 4. Insist that others be careful and comply with burning requirements.
- 5. Call the warden promptly when fire is detected and aid him to extinguish it.

Let's remember that FOREST FIRE PREVENTION is EVERYBODY'S BUSINESS and our MOST IMPORTANT undertaking!

# ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Orford:

I present herein my first annual report as Superintendent of Schools in Orford. Because of the short time that I have been here, the report is somewhat superficial.

Orford is fortunate in its teaching staff. On the whole, I have been very favorably impressed with what I have seen of the work of the members of that staff. I sincerely hope that we may retain them, for, with the teacher shortage becoming increasingly acute, they would be most difficult to replace.

The spirit and attitude of the pupils seems to reflect the wholesome and constructive situation that exists both in the schools and in the community.

I am proud to be associated with the Orford Schools and with Supervisory Union No. 22. I hope that I may be able to carry forward the good work that has characterized the schools under my predecessor, Mr. Howard Mason.

#### Teachers' Salaries

As mentioned above, the teacher shortage is becoming increasingly acute. Teachers' salaries are going up. Orford has not kept pace in this respect. The following table shows the average salary for full time New Hampshire teachers for the year 1953-54, the last year for which figures are available, as compared with the 1954-55 averages for the Orford teachers, excluding the principal:

	State Average 1953-54	Orford Average 1954-55
Elementary High School:	\$ 3,028.00	\$ 2,663.00
Men Women	3,541.00 3,353.00	3,167.00 3,050.00

I recognize that averages are not too meaningful for the relatively small number of teachers that there are in Orford. I would point out, however, that, except for one teacher, the highest salaries received in Orford in 1954-55 are below the State average for 1953-54. The latter average will be even higher for 1954-55.

Obviously. if Orford desires to attract and retain good teachers, it must, in the near future, make its salary scale more attractive.

# **Building Committee**

I am glad that Orford at its last Annual Town Meeting voted to have some of its citizens make a study relative to the erection of a building that could be used both by the school and the community. Certainly, the school needs better facilities for its physical education, athletic, assembly and other programs.

I sincerely hope that any such building will be so planned that it will be immediately adjacent to the school, and that it will make provision for future classroom expansion.

#### General

Because of the short time that I have been here, I asked Mr. Elmer Fulton, Principal, to prepare a report for me on some of the developments during the year. I feel that his report is worth quoting in full. It is as follows:

"Space will not permit an extensive account of what transpires in the schools, but the public may be interested

in some aspects which do not reveal themselves in news accounts, plays, bazaars, and events of similar nature.

"The addition of a teacher to the high school staff made possible the offering of General Business and French III. At the same time it strengthened the social studies department and the business education department, while making it possible to provide better supervision of study halls and activity periods.

"The high school continued to maintain a small but steady increase in annual membership and a decrease in the number of drop-outs. Daily attendance in the grades stayed at its excellent high percentage, well above 90%, and one month broke its all-time high with 97%.

"This brings to mind two frequently unmentioned services, that of the cafeteria, and the health department. Dr. Hall, the school physician, and Mrs. Lovett, school nurse, conducted many physical examinations, and in general maintained health records of all pupils. Mrs. Baker at Orford-ville and Mrs. Corpieri at the Lower Street served an average of 150 pupils meals daily from November to April vacation. These services, along with the physical education program, should be considered as having contributed to a gratifying state of pupil health.

"In the physical education program a new fall sport for high school girls, that of field hockey, was adopted. New uniforms and equipment were purchased, practices were held, and plans made to play some games with other schools next year. More grade school boys and girls played basketball and skied than ever before in the schools of Orford. And while singling out teams which won should not be the test of a physical education program, it certainly is true that the good records of the soccer team and the varsity boys' basketball team added zest to this part of school life.

"Interesting and needed improvements to the physical plant of the schools included these: new sewage disposal at Orfordville, adequate lightning rods at the high school, and a new jet pump there to replace a worn-out water pump. Also at the high school a fire escape with door and exit lights was provided for the large assembly room. Here, too, an emergency lighting system, powered by battery, was was established to meet state safety laws.

"Over and above routine items of new equipment for the schools were the following: slide projector for film strips and slides at Orfordville, planer and grindstone for the high school shop, typewriting desks for the business education department, new encyclopedias and reference material in the high school library, and a tape recorder for all grades at the Lower Street to assist in speech improvement and foreign language study.

"More boys and girls are continuing their education in post-secondary schools than perhaps hitherto was true. While graduates continue to enter the Armed Forces or to find employment, some of last year's graduates entered agricultural college, business college and liberal arts college. For the first time in several years, also, Orford High School graduates were attending Keene Teachers' College and Plymouth Teachers' College."

# Faculty Changes

Orford can be pleased with new teachers on the staff this year. All are in the High School, They are:

Mr. Malcolm L. Hartwell, teaching French and Social Studies.

Miss Isabel A. Hunt, Commercial. Mrs. Mary P. Wilson, Home Economics.

#### Conclusion

I wish, particularly as a newcomer, that I did not feel that I owe it to you to point out matters that call for increased expenditure. Without further state or federal aid, those expenditures would add to an already heavy tax burden. Yet, the children go through school only once, and we must do the best that we can for them.

I shall, of course, have more opportunity in the future to meet the parents and other citizens of Orford. I certainly hope so, for in such contact as I have had with them, they have been most cordial.

I want to express my sincere thanks for the cordial, helpful and cooperative way in which I have been received by the members of the staff. To you, the members of the School Board, I give particular thanks for your help, counsel and support.

Respectfully Submitted,

ARTHUR E. PIERCE,

Superintendent of Schools.

## REPORT OF THE SCHOOL NURSE

To the Orford School Board:

I herewith submit my final report as School Nurse.

During the early months of the school year 1953-54, the School Physician, Dr. Hall, examined 122 of the school children, 72 High School pupils and 50 attending the grades.

These defects were reported:

Dental Part of the State of the	22
Tonsils	8
Cervical glands	4
Heart	3
Orthopedic (also some with poor	r posture
and flat feet were noted)	2

The remaining 62 pupils were inspected by the nurse with symptoms of these defects found:

Dental					18
Tonsils					6
Vision					15
Hearing					2

At the end if the year these corrections were reported made:

Dental		88
New glasses	or lens changed	 20

Five children had examination and glasses through the Sight Conservation Program. Three children attended the Orthopedic Clinics held at Hanover. On January 28, 1954, 99 children were skin-tested by Miss Ellen Clough, Grafton

County Tuberculosis nurse.

On February 5, 1954, four children had X-rays of the chest at the Lebanon Clinic, four other children had X-rays of the chest during the year. On May 27, 1954, 13 children entering school in September had physicals by Dr. Hall at the Pre-School clinic. Eight cases of chicken-pox, three of mumps and one of scarlet fever were reported. The hot lunch program is a definite factor in maintaining good nutrition for the children and seems to be greatly appreciated.

I welcome this opportunity to thank all who have helped with the School Health Program during the last five years

that I have been your school nurse.

Respectfully submitted,

ANNA M. LOVETT, R. N.
